

The Cognitive Centre and fabtic bring you a one-day national juvenile firesetting conference entitled

## ***Working With Juvenile Firesetters – Keys to Success***

### **Description:**

In his first UK conference since 2009, Professor David Kolko will deliver an overview of current juvenile firesetter work, discuss the use and validity of assessment tools and give an insight into intervention materials that will form the basis of a new book proposed for early next year. This new, novel and unique juvenile firesetter manual will integrate assessment, treatment and intervention materials into one source.

Professor of Psychiatry, Psychology, Paediatrics and Clinical and Translational Science at the University of Pittsburgh, Professor Kolko is recognised as one of the world's leading authorities on juvenile firesetting behaviour. He has spent over 30 years researching – and working directly with – children and adolescents who set fires. Through case studies of his work and open Q&A sessions, delegates will have the opportunity to learn from expertise that is based in research spanning three decades.

### **Who Should Attend;**

All professionals working with children and adolescents who set fires, and those looking to understand juvenile firesetting behaviour and this specialist field of work.

### **When:**

Friday 17 April 2015 from 10am to 4.30pm (registration and coffee from 9am).

### **Where:**

The Midland Hotel Manchester, Peter Street, Manchester, M60 2DS.

### **Cost:**

£295 + VAT per delegate which includes all materials, refreshments and lunch.

### **How to Book;**

Please contact the Cognitive Centre on (029) 2051 3048 or email [wendy@cognitivecentre.com](mailto:wendy@cognitivecentre.com)

### **About the Cognitive Centre:**

The Cognitive Centre specialises in risk and offending behaviour. Established in 1992, the Cognitive Centre has worked in partnership with statutory, voluntary and private organisations throughout the UK, Europe and Australasia. In 2006 the Cognitive Centre launched the FireSafe programme, used by numerous Fire and Rescue Services in the UK. The Cognitive Centre provides consultancy, training and support services to organisations that wish to develop and improve their ability to work effectively with people.
